## 塑料包装袋/Plastic Bag

**100% RAW MATERIAL**  
 Compostable bags are made from 100% natural plant-based polymers. They are biodegradable and can be recycled into new products. They are also safe for the environment and do not contain any toxic substances.

**CONTACT SAFETY**  
 Made from 100% natural raw material, the bag is completely safe for use and does not contain any toxic substances.

**TENSILE & LEAKAGE RESISTANCE**  
 Thanks to their toughness and tensile strength, they can carry heavy loads and their plastic resin is leak-proof and odor-free.
