

Who We Are ?

G is an integrated solution provider that has his own facilities and resources, which mainly includes packaging, logistics and trading business. We add value through our multiple capabilities to a wide range of customer segments. Packaging is an important section for our business, we offer the one stop package service from design solutions, manufacturing, sourcing to final delivery.

Why choose us

Full process service to reduce customer costs and supply chain complexity.

G focus on the design, engineering, quality control and supply chain and do the qualified manufacturing for our customers.

Robust supply chain capacity make your offshore sourcing happen efficiently.

We are not a broker, not a package consultant, not a distributor. We are the combination of the three.

What is Molded Fiber Tableware?

Molded pulp is produced from rapidly renewable grasses and fibers, including bagasse, bamboo, wheat stalk. In addition to environmentally friendly, this material is cost-efficient. The molded forms are rigid and resistant to tears and light pressure or weight. Additives can be incorporated for moisture- and grease-resistance, and to comply with FDA standards.

► From Nature To Nature

► Certifications

Customization

G provides branding customization service, making your idea happen, which offer you a unique experience of customization.

Tooling

You can order the standard types in our list or we have the bespoke ones for you with new tooling and we will ensure your IP well protected.

Printing

The 1 color printing can be applied to the rim of the plates or bowls. CPET and PLA film can be laminated to the inner of some plates and trays.

Packaging

Both the outer bulk carton and the inner bags can be customized according to your requirement and no need to relabel or repack for retail channels, which saved your cost and expanded your brand as well. (Inner packing: Shrink wrap, PE bag; Label: Film print, stick label, paper label)

Product Overview (Plates)

Made from 100% renewable resources. Compostable (BP) certified.
 FDA approved for food use. Grease and water resistant. Microwaveable.

Compostable Plates. PET lids are available
